

Microsoft 365 with Penta

Empowering productivity.
Securing compliance.

A seamless way to work – backed by compliance expertise and Swiss-grade security

Microsoft 365 offers the tools your team already loves.

But when paired with Penta's private cloud infrastructure, certified expertise and 24/7 support, it becomes a powerful platform for secure, compliant, and resilient digital operations.

Whether you're an SME or a regulated financial firm, Microsoft 365 with Penta gives you the confidence to collaborate anywhere, anytime, and without compromise.

Who is Microsoft 365 for?

- **Start-ups and SMEs with no in-house IT**
- **Businesses needing predictable IT costs**
- **Organisations scaling fast and needing flexibility**
- **Teams working remotely or across locations**
- **Regulated firms requiring enhanced security and compliance**

Why choose Microsoft 365 with Penta?

Custom implementation

Delivered by certified engineers with deep Microsoft and infrastructure expertise

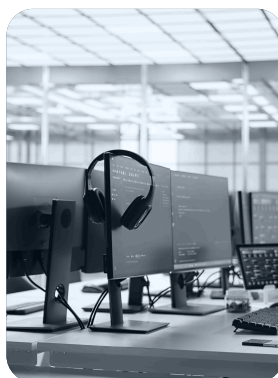

Smooth integration

Seamlessly connects Microsoft 365 with your existing apps and systems

Compliance-ready setup

Configured to meet FINMA, DFSA, GDPR and ISO 27001 standards (when paired with hybrid cloud)

Enhanced security posture

Best practices for access control, encryption, threat protection and endpoint security

Optional hybrid cloud

Store sensitive data in sovereign Swiss or UAE data centres

Adoption & training support

Equip teams with practical know-how to use Microsoft 365 securely and effectively

Responsive, local support

Geneva- and Dubai-based engineers providing real-time assistance and escalation paths

Sector-specific expertise

Trusted by 120+ financial and regulated organisations since 1996

Value-Added Services & Add-Ons

Included with every deployment, delivered by Penta's team of certified engineers and regulatory experts:

- **Complete environment setup & migration**
- **Microsoft 365 training & adoption workshops**
- **Teams, OneDrive, Exchange configuration**
- **24/7 premium support with VIP response**
- **Compliance documentation & DR readiness**
- **Penta SecureBox integration (optional)**

Boost Your Microsoft 365 with Penta

Enhance your solution with specialised add-ons tailored for security, compliance and resilience.

Cyber Security

- **Microsoft Defender for Endpoint Plan 2** – Advanced threat protection with behavioural analytics and EDR
- **Penta Sentinel (SIEM)** – Continuous threat monitoring and alerting with full compliance alignment
- **Penetration Testing** – Custom pentesting simulations for risk detection
- **Cybersecurity Awareness Training** – Role-based learning to reduce insider risk
- **Web Filtering & Device Security (Intune)** – Enforce policies and secure remote endpoints

Compliance, Governance and Data Protection

- **Data Loss Prevention (DLP)** – Monitor and block unauthorised data sharing
- **Microsoft Purview** – Centralised governance, compliance insights, and risk management
- **Microsoft Customer Key** – Retain full control over encryption keys for M365 data
- **SOC 2 Type II** – Continuous audit-ready reporting (available in hybrid options via Penta's infrastructure)

Resilient Business Continuity

- **Backup-as-a-Service (Penta BaaS)** – Encrypted, redundant backup hosted in sovereign jurisdictions
- **Disaster Recovery Ready** – DR planning and automated failover capabilities
- **Hybrid Hosting for Data Sovereignty** – Combine Penta private cloud with Microsoft 365 to keep sensitive workloads in Switzerland or the UAE

¹ Microsoft Phone may not work in certain countries.

Frequently Asked Questions

Will I lose Microsoft support if I switch to Penta?

No. You retain full Microsoft support. Penta enhances your experience with 24/7 local support and compliance expertise.

Will there be downtime during setup or migration?

Not at all. Our engineers ensure a seamless migration process without disruption.

Can I keep my current Microsoft licences?

Yes, in many cases we can transfer or optimise existing licences.

Is my data really more secure with Penta?

Yes. With Penta, your data is hosted in private clouds in Switzerland or the UAE — outside of the public cloud and under strict data sovereignty controls.

What if I want to scale or add services later?

Our plans are modular and fully scalable — you can expand anytime with zero hassle.
