

SecureBox

Ultra-Secure File Sharing System

SecureBox is a secure corporate cloud file sharing platform. Access your data anywhere and backup, view, sync and share – all under your control.

SECURE FILE SHARING AND BACKUP

The secure alternative to public cloud file sharing and backup with bank-level authentication. In multiple languages.

[English, French, German, Italian, Spanish, and Arabic]

LONG-TERM BACKUPS AND DATA RECOVERY

Instantly meet data protection and backup legal requirements with up to five-year data backup and recovery options.

CONTROL YOUR DATA

Data is stored and encrypted in Penta's private infrastructure. Manage groups and security policies, backed by audit logs.

VERSIONING

Previous version of modified files are automatically retained and can be restored, while automatically managing storage space.

SHARE FILES

Send links to people inside or outside your company. Set unique passwords, expiry dates, edit and download permissions.

REGULATORY COMPLIANCE

Auditor-ready compliance reports included. Independent ISAE 3402 audits for regulatory compliance needs.

FILE SYNCHRONIZATION

Desktop and web clients for PC, Mac, iPhone, iPad or Android device. Changes on one device automatically replicate across all.

Available on
